

ALS PREPARES SENIOR AIRMEN TO BE MULTICAPABLE AIR AND SPACE PROFESSIONALS WHO WILL LEAD TEAMS TO SUPPORT THE AIR FORCE MISSION.

ALS is the first level of USAF Professional Military Education (PME) for enlisted Airmen. Upon completion, students will be able to:

- Exhibit the Core Values and instill them in others.
- Communicate individual roles and understanding of Air & Space Force missions.
- Collaborate and connect with members of the Air and Space Force team.
- Apply cognitive strategies to solve Air and Space Force problems.

 Maxwell Air Force Base, AL 36112

MISSION

Introduces students to the Air Force Core Missions/Capabilities, Joint Force Efforts, National Defense Strategy, Strategic Competition, Nuclear & Cyberspace enterprise and more.

DURING THE COURSE, STUDENTS ENGAGE IN EXTRACURRICULAR ACTIVITIES. THESE EVENTS CHALLENGE THEM TO EXCEED STANDARDS, MAINTAIN GOOD ORDER AND DISCIPLINE, AND REINFORCES THE IMPORTANCE OF BEING AN AIR FORCE AMBASSADOR.

COURSE DESCRIPTION

ALS prepares Senior Airmen to be war-fighting professionals by strengthening their ability to lead, follow, and manage while gaining a broader understanding of the military profession. During the course students participate in guided discussions, in-class exercises, and performance tasks to demonstrate comprehension of lesson concepts and principles. This forum allows students to share ideas and experiences as well as work together to achieve various educational objectives. The course consists of four learning areas: Mission, Leadership, Problem Solving, and Culture. Students must satisfactorily accomplish all lesson objectives using the criteria outlined in the course curriculum.

Students are highly encouraged to bring a laptop computer/tablet.

Course Length: 24 Academic Days

LEADERSHIP

Elaborates on when and how to use known leadership techniques to influence behaviors that lead to individual and team success.

COMMUNITY INVOLVEMENT

UNIFORM INSPECTIONS

PHYSICAL TRAINING

PROBLEM SOLVING

Inserts students into simulated situations where they must apply critical thinking and negotiation skills to solve real-world issues.

CULTURE

Covers the value and impact that ethics, trust, relationships, diversity, and communication contribute to the effectiveness of an organization.
